

Go Energistics is dedicated to partnering with healthcare systems and medical research facilities to shape, transform and evolve business and building solutions to empower our team to deliver world-class services to our nation's families. Our expertise in planning and project management helps optimize business and building transitions to run efficiently and effectively.

### SHAPING HEALING ENVIRONMENTS

Go Energistics, LLC (GoE) is a Service-Disabled, Veteran-Owned Small Business (SDVOSB) and Texas HUB Certified company that offers industry best-value through a customized and scalable team approach and proprietary process.

One of the greatest privileges we have is **Serving Those Who Serve**. Our experienced team forms the foundation of GoE's ability to serve our clients who care for the needs of others every day.

Today's healthcare leaders face competing requirements and complex demands. GoE project teams **become dedicated partners** that provide critical expertise, supporting technologies and solutions to fit any transformation.

GoE **prepares healthcare staff and facilities** for business and building transformations — including new construction, renovation and/or improvements to existing spaces and functions. We **connect every aspect of your healthcare project** — ensuring facilities and staff are ready to serve on day one.

Regardless of the project scope, GoE is **dedicated to providing building solutions** to meet our clients' requirements. Our exclusive **GoE-FiT philosophy** combines our life cycle methodology with our comprehensive service delivery and cloud-based toolkit to **achieve project success**.

### OUR GEOGRAPHIC REACH

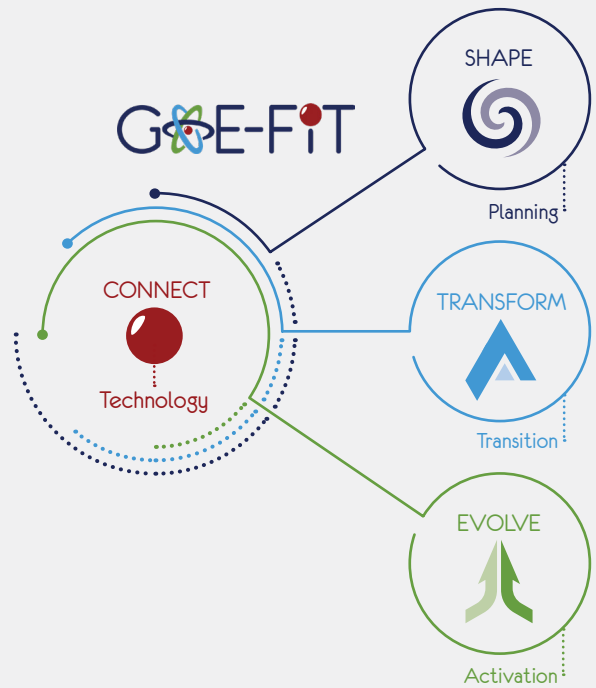

## CREATING SOLUTIONS THAT FIT

What makes GoE stand apart from our competitors is **our unique ability** to create the best partnership possible between our team and our clients, identify operational efficiencies and deliver project solutions that are the **best "FiT"** for our clients' needs. This is our **GoE-FiT philosophy**. It integrates three core capabilities, **Shape** (planning), **Transform** (transition) and **Evolve** (activation), with our **exclusive technology solution - Connect**.

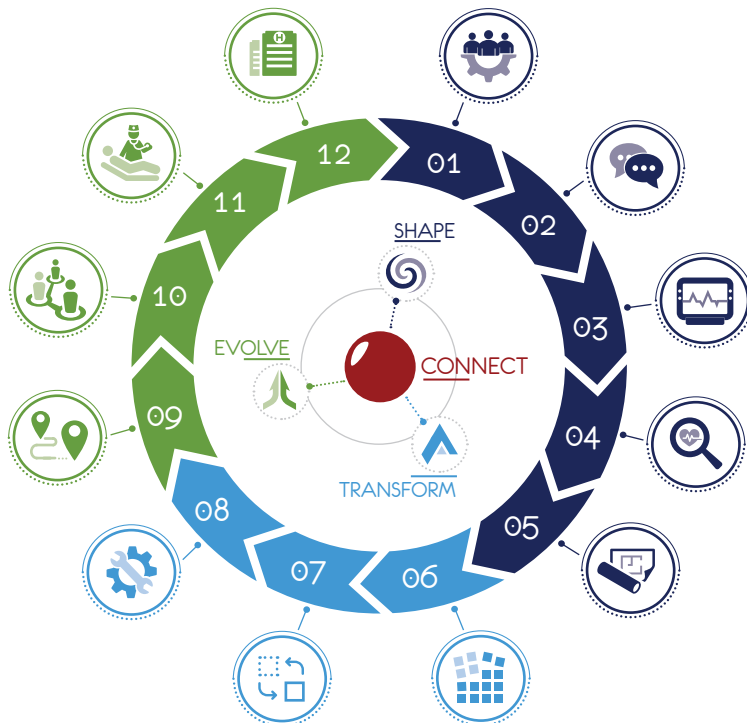

The **nucleus** of our capabilities is our technology solution that unites our service delivery with project automation. As a significant benefit to our clients, we **automate many reporting functions** associated with IO management to provide the client with real-time technical information, status, metrics and financial data. Our **database application** can generate monthly, weekly and daily progress and risk reports to provide **constant status updates**.

With applications that **connect**, our GoE-FiT process harvests our technical experience, built-in **project delivery best practices**, and relevant healthcare facilities expertise, to offer clients unique and comprehensive project solutions.

## COMPREHENSIVE SERVICES & CAPABILITIES

GoE strives to be the **project delivery team of choice** for your needs. We work closely with our clients throughout the entire lifecycle of every project, regardless of size. Whether your needs are local, nationwide or even worldwide, our **highly trained professional staff** is prepared to execute an impressive range of healthcare services, utilizing our proven logistics system.
